BEVO AGRO INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

PERIODS ENDED MARCH 31, 2007

1. Organization

Bevo Agro Inc. was incorporated July 9, 1985, under the *Company Act* of British Columbia, which has been replaced by the *Business Corporations Act* (British Columbia). The stock is publicly traded on the TSX Venture Exchange under the symbol (BVO). The consolidated financial statements include the operations of Bevo Agro Inc. and its wholly-owned subsidiaries: Bevo Farms Ltd. (Langley, BC), Bevo Agro Inc. (Nevada), and Bevo Farms Inc. (Arizona) from the date of acquisition on July 11, 2000.

Bevo Farms Ltd. operates 34 acres of propagation greenhouse facilities on 98 acres of land in Langley, B.C. The company's main products are the propagation of vegetable plants such as tomatoes, peppers, cucumbers, and other plants such as bedding plants, flowers, trees, grapes and grasses. In general the company markets its products to established greenhouse growers and nurseries throughout North America.

Bevo Agro Inc. (a Nevada corporation) and Bevo Farms Inc. (an Arizona corporation) are both inactive.

2. Significant accounting policies

Consolidation

The consolidated financial statements include the accounts of the company and its wholly owned subsidiaries. All significant intercompany transactions have been eliminated.

Interim reporting

In the opinion of management the unaudited quarterly consolidated financial statements reflect all adjustments consisting only of normal and recurring adjustments, necessary to present fairly the financial position at March 31, 2007, and the results of operations and changes in the financial position for the three months ended March 31, 2007, in accordance with accounting principles generally accepted in Canada. These financial statements should be read in conjunction with the company's audited financial statements and notes thereto related to the year ended June 30, 2006.

Use of estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Significant financial statement items which involve measurement uncertainty include accounts receivable, inventories, and accounts payable and accruals. Actual results could differ from those estimates.

BEVO AGRO INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
PERIODS ENDED MARCH 31, 2007

2. Significant accounting policies (continued)

Cash

Cash includes cash on hand, balances with banks, and highly liquid temporary investments with maturities of three months or less at the time of acquisition.

Foreign currency translation

Monetary assets and liabilities denominated in foreign currencies have been translated into Canadian dollars at the rate of exchange prevailing at the balance sheet date and non-monetary items are translated at rates of exchange in effect when the assets are acquired or obligations incurred. Revenue and expense items are translated at the average rate of exchange for the period. Foreign exchange gains and losses are included in income.

Inventories

Inventories are valued at the lower of cost and the net realizable value for work in process and at current replacement cost for raw materials. The cost of inventories includes the cost of materials, labour and direct overhead costs.

Income taxes

The company uses the asset and liability method of accounting for income taxes. Under this method, future tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Future tax assets and liabilities are measured using enacted or substantively enacted Canadian tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. When realization of future income tax assets does not meet the more likely than not criterion then a valuation allowance is provided.

Revenue recognition

Revenue is recognized using the completed contract method of accounting when the propagation process is completed and the products are shipped to the customers.

BEVO AGRO INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
PERIODS ENDED MARCH 31, 2007

2. Significant accounting policies (continued)

Property, plant and equipment

Property, plant and equipment are recorded at cost. Amortization is provided using the declining-balance method at the following annual rates:

Assets	Rate
Buildings	2.5 - 5 %
Greenhouse, shade and packaging equipment	5 %
Land improvements	5 %
Machinery and equipment	10 - 30%

Equipment under capital lease are amortized over the term of the lease agreement.

Deferred costs

Costs incurred to obtain debt financing are deferred and amortized on a straight-line basis over the term of the financing obtained.

	March 31, 2007	June 30, 2006
Deferred financing fees	\$ 129,375	\$ 35,844

Goodwill

Goodwill represents the excess of the purchase price over the fair values of net assets acquired in the acquisition of a propagation greenhouse facility. The company has adopted the Canadian generally accepted accounting principles for recording goodwill. As a result, goodwill is no longer amortized to income. Instead, the carrying value of goodwill is reviewed on an annual basis to determine if there has been an impairment. The carrying value of goodwill will be written down if the value is permanently impaired. An impairment exists if the future cash flows from the operations are less than the net book value. Management is of the opinion that there has been no diminution in the value assigned.

BEVO AGRO INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

PERIODS ENDED MARCH 31, 2007

2. Significant accounting policies (continued)

Net earnings per common share

Basic earnings per share are computed by dividing the net earnings by the weighted average shares outstanding during the reporting period. Diluted earnings per share are computed similar to basic earnings per share except that the weighted average shares outstanding are increased to include additional shares from the assumed exercise of stock options, if dilutive. The number of additional shares is calculated by assuming that outstanding stock options were exercised and that the proceeds from such exercises were used to acquire shares of common stock at the average market price during the reporting period.

3. Seasonality of operations

Sales of seedling and bedding plants are based upon customer demand and deliveries are scheduled according to customer requirements, which fluctuate from season to season. Since fixed costs such as interest, amortization and overhead costs apply uniformly throughout the year, profitability results may vary significantly from quarter to quarter.

BEVO AGRO INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
PERIODS ENDED MARCH 31, 2007

4. Property, plant and equipment

	Cost	Accumulated Amortization	Net book value March 31, 2007

Less: current portion of term debt	(5,846,012)	(21,720,499)
Total long term debt	\$ 16,083,427	\$ -

The bank loans are secured by a general security agreement, a mortgage on the plant and property, a charge on inventories, a general assignment of book debts, and assignment of property insurance.. The De Lage Landen loan is secured by the computer hardware purchased.

BEVO AGRO INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
PERIODS ENDED MARCH 31, 2007

6. Long term and subordinated debt (continued)

It is the company's intention to renew the long-term debt as it becomes renewable in the normal course of business at prevailing interest rates and repayment terms at the time of renewal.

The company has obtained a standby \$5,000,000 term loan to pay out the maturing subordinated debt in September, 2007. The standby term loan is subject to final approval by BMO Bank of Montreal.

Principal payments on mortgages and subordinated debt required to be made in the next five years and thereafter are as follows:

	March 31, 2007	June 30, 2006
2007	\$ 5,846,012	\$ 21,720,499
2008	1,074,333	-
2009	1,126,896	-
2010	1,117,252	-
2011 and thereafter	12,764,946	-
	\$ 21,929,439	\$ 21,720,499

7. Obligations under capital lease

	91,037	231,099
Less: current portion	91,037	214,281
	\$ -	\$ 16,818

Future minimum lease payments for the next two years are as follows:

	March 31, 2007	June 30, 2006
2007	\$ 76,496	\$ 214,281
2008	14,541	14,541
	\$ 91,037	\$ 228,822

Annualized interest rates range from 3.9% to 7.0%.

BEVO AGRO INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
PERIODS ENDED MARCH 31, 2007

8. Due to a company with directors in common

The amount due to C.G.M. Ventures Inc. is unsecured, non-interest bearing and has no set terms of repayment. The lender has agreed not to demand repayment of the loan in the next fiscal period and it is therefore classified as a non-current liability.

9. Capital stock

Authorized

Unlimited common shares with no par value.

	March 31, 2007 Number of Shares	March 31, 2007 Amount
Issued and outstanding as at March 31, 2007	25,535,933	\$ 4,008,443

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
PERIODS ENDED MARCH 31, 2007

9. Capital stock (continued)

(a) Summary of stock options outstanding as at March 31, 2007.

Security type	Number outstanding	Price	Expiry date
Share options	130,000	\$ 0.30	December 15, 2007
Share options	500,000	0.28	May 12, 2009

(b) The company has adopted a stock option plan, which reserved 2,411,900 shares for issuance under Plan options and any outstanding prior options granted outside of the Plan. Shares reserved under Plan options or prior options that expire, terminate or otherwise cease to be exercisable will become available for the issuance of future options under the Plan, subject to the 2,411,900 share maximum. The number of shares reserved does not exceed 10% of the Company's current issued and outstanding share capital.

(c) On May 12, 2006, the company granted stock options under its 2004 stock option plan to the directors and officers for the purchase of 500,000 common shares at a price of \$0.28 per share. One third of these options are exercisable as of May 12, 2006, one third are exercisable May 12, 2007, and one third are exercisable on May 12, 2008. The options will expire on May 12, 2009.

10. Changes in non-cash operating working capital

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
PERIODS ENDED MARCH 31, 2007

11. Financial instruments and risk management

The company has various financial instruments including cash, receivables, amounts due to a company with directors in common, payables, income taxes payable and term debt. The carrying value of all the financial instruments approximate their fair value.

The company is exposed to the following risks related to its financial assets and liabilities:

Currency risk

The company is exposed to currency risk as some of its accounts receivable are denominated in U.S. dollars. The company earns some revenue in U.S. dollars and incurs most of its expenses in Canadian dollars.

Interest rate risk

The company's debt has both fixed and floating interest rates. At March 31, 2007, the fair market value of the term debt and subordinate debt approximates the book value of \$21,929,439 (June 2006: \$23,535,797).

	March 31, 2007	June 30, 2006
Fixed interest rates		
Loans	\$ 16,929,439	\$ 15,429,839
