ABOUT BEVO FARMS LTD.

Bevo is the largest supplier of propagated plants in North America, providing greenhouses, field farms, nurseries, and wholesalers across the continent with healthy, vigorous, pest-and-disease-free plants.

SUMMARY

We are looking for a dedicated and hard working Greenhouse Maintenance Mechanic who can perform all duties of a service engineer in all aspects of plant propagation. For assigned facilities within Bevo's operations, works under general direction to perform all necessary preventive maintenance, routine servicing and repairs (MRO) on equipment, greenhouse plant and facilities. Exercises a degree of independent judgment and cooperates fully with greenhouse operations to minimize both downtime and interruption of greenhouse production activities.

RESPONSIBILITIES

1. Performs a weekly review of all open requests and priorities for maintenance, servicing and repairs required on all greenhouse facilities. Communicates closely with the Head of Maintenance and Growers on supporting their MRO needs.
2. As required, supports greenhouse managers and supervisors for MRO emergencies and related equipment/plant and facility repairs.
3. Under the general direction of the Head of Maintenance, applies judgment in determining priorities for making general repairs and or replacement of components/equipment on breakdowns. When such actions incur significant costs or risks, consults with the General Manager for direction and options.
4. Performs and records daily maintenance routines for boiler plant, climate control & irrigation equipment and security devices, all in accordance with standard Bevo MRO standards. As necessary, performs repairs and servicing.
5. Under the direction of the Head of Maintenance, performs a weekly walk through inspections of assigned facilities. In consultation with Growers and Floor Manager, identifies MRO and servicing requirements and records conditions and required follow-up actions.
6. Provides after hour back-up support to the Head of Maintenance for emergencies.
7. When required, may be called on to perform other duties in support of greenhouse operations.

QUALIFICATIONS

High school diploma and full qualifications as a certified journeyman mechanic with BC or national trades certificate or combination of education, on the job training and experience. Demonstrated skills and proficiency with mechanical, electrical and pneumatic equipment repairs/servicing gained from a minimum of five years of industry experience, preferably in a greenhouse operation. Good computer skills, planning aptitude and demonstrated application of sound judgment.

JOB REQUIREMENTS

- Legally entitled to work in Canada.
- This position requires a candidate who can carry out a wide range of duties including – electrical, mechanical, and carpentry, etc.
- Ability to work both independently and as part of a team; listen well and follow direction.
- Must have good communication skills and own transportation.
- If you have the skills and experience of a general maintenance mechanic, please send your cover letter + resume to Human Resources via email: bevofarmshr@gmail.com and we will contact you to discuss this opportunity.
- We thank all the applicants for their interest in this position, however, only those candidates chosen for an interview will be contacted.
